

# A heart to play with

Zuriel Kritten

## Capítulo 1

He isn't as kind as you thought.

He needed hands to state the property.

He used the loud sound to make her silent.

He treated wounds with reluctance.

Silenced souls are the toughest ones.

Sadly, chains are not what is holding you.

Aren't you sad, girl?

The one she loved the most.

Noticeable was the crime.

Yet you were still there.

The one who knocked on my door.

Fake happiness darkened my room.

I hold that poor girl with my eyes.

Is that all the truth?

Please, unravel what's left of me.

A shattered chest asking for relief.

You've earned the whole night.

You no longer have to fight.

3am on the clock.

By the side is the sin I gladly accepted.

Do you still fear the arrival of the torment?

I woke up surrounded by smoke.

How long has it taken?

Alcohol did not ease the pain.

You've become a traitor.

You've become the drug I don't need.

Happily, from drugs we can make poetry.

Am i part of you now?

Weakened by the betrayal.

After being your savior.

Foolish actions do not open gates to heaven.

And your secret remains here.

I haven't touched anything.

Just to remember our little moment.

Why didn't you stay?
